FIG. 4 is a schematic diagram of a network architecture showing a physical ring network and virtual ring networks.

Figure 4

Figure 5

The first step is to define the system parameters. The system is a 120-km ring with two ANs and one NN. The ANs are connected to the NN via a 120-km ring. The ANs are also connected to the ES via a 120-km ring. The ES is connected to the ANs via a 120-km ring. The system is a 120-km ring with two ANs and one NN.
